

## Company

Over 50 years of know-how and quality in hydraulics up to 1000 bar! Bieri Hydraulik AG, which is now a part of MK Holding SA, was founded in 1950.

80 staff develop, manufacture and sell, at two locations, standard components up to 1000 bar and special solutions in all pressure ranges. Complete installations include electrical control and fitting. To your advantage.

You will find Bieri standard components and special solutions wherever hydraulics are used in industry: mechanical engineering, oil, shipbuilding, medical technology, power stations, mining, defense, public transport, paper, food, and construction. And in many other areas. Worldwide.

Bieri Hydraulik has a global network of representatives. Two thirds of its products are exported.

Bieri Hydraulik stands for quality, innovation and reliability. And that is up to 1000 bar.

## Individually for you

10 Bieri development specialists turn all customer requirements into practice. With more than 50 years of experience and the know how in hydraulics combined with power of innovation, Bieri finds the solution for all customer requests as complex they may be. This in any pressure range, from low pressure up to high pressure of 1000 bar. The 3D CAD technology and a work shop for prototypes equipped with modern machineries are guarantors for the realisation of the high placed goals. Modern production machines ensure a cost optimised manufacturing of all tailor made products. Local partners worldwide with high qualification guarantee for optimised customer solutions. Bieri tailor made solutions - individually for you.

## Standard components

### Tailor-made off the rail

Bieri hydraulic components are used throughout the world. In the widest variety of application areas, in the construction sector, and in medicine, they allow reliable operation and long service life. Every component contains the whole of our know-how and our every care.

### Range of products

Axial and radial piston pumps, valves, pressure switches, level switches and control blocks are just as much a part of the program as are complete drive assemblies and control systems.

### Bieri stands up to any pressure

Bieri's diverse range of products includes hydraulic components for the widest variety of demands and applications. And always in the famously reliable Bieri quality.
